

OPERATOR SUPERVISOR 'BOOT CAMP' LEVEL 2

VEHICLE SPECIFIC

Front End Loader and Tractor Loader Backhoe Operator Supervisor

This course is designed for the Operator Supervisor, and begins by covering safe productivity focusing on components and control identification, safety and warning symbols, pre-start procedures, starting procedures and after starting checks. The course also

focuses on operation and safety, machine shut-down, advantages and limitations, attachments, load securement, tie-down and preventative maintenance. All aspects of topics covered are taught from a Supervisor's perspective and will leave participants with a good sense of the basic operation as well as the ability to recognize and remedy any worker safety and/or production deficiencies.

Motor Grader Operator Supervisor

Designed for the Operator Supervisor, this course begins with the overall safe productivity by focusing on motor grader components, control identification, safety, warning symbols, pre-start procedures, starting procedures and after starting checks. The course finishes by focusing on operation, safety, machine shut-down, advantages and limitations, attachments, load securement and tie-down and preventative maintenance. Supervisors are left with a good sense of basic operation of the Motor Grader as well as the ability to recognize and remedy worker safety and/or production deficiencies.

Snow Plow Supervisor

Designed for the Operator Supervisor, the course covers such topics as pre-season preparation, snow and ice control, Environment Canada's *Code of Practice for Salt Management* as well as the *Occupational Health and Safety Act*. Also included is Minimum Maintenance Standards/LOS, vehicle

components, hours of service, documentation/record keeping and due diligence. All aspects of the topics covered are taught from a Supervisor's perspective and will leave participants with a good sense of the basic operation of the Snowplow Operation as well as the ability to recognize and remedy any worker safety and/or production deficiencies.

The following courses are available for supervisors upon request:

- ▶ Crawler excavator
- ▶ Crawler dozer
- ▶ Bucket truck
