GRAVEL ROAD SCHOOL

Course Overview

Gravel roads are a critical part of our Provincial transportation system. AORS Gravel Road School gives supervisors the knowledge, practical insights, and grader-related best practices so they can lead their teams, improve road quality, and minimize service requests.

The training program is a 2 day classroom course specific for anyone involved with maintaining gravel roads. The following topics are thoroughly covered:

- The anatomy of a road
- Shoulders, ditches & drainage
- Gravel road maintenance
- Dust control benefits
- Snow & ice control
- Road issues
- Erosion control
- Motor grader techniques

Who Should Attend: Supervisors, Operators, CAO's, Fleet Managers and Hands-on Councillors.

Evaluation/Documentation: Written test and/or oral exam. The employer will receive a certificate of completion and a summary of training for each participant who successfully completes the course.

About the Facilitator: Developed and delivered to you by **Ground Force Training Inc.**
