LEGISLATION/SAFETY SERIES 06

CONFINED SPACE AWARENESS/ENTRY

Course Overview This training course covers the definition of a confined space and the applicable regulations. Topics covered vary depending on whether staff are entering confined spaces or working around them and may include:

- Changes to the OHSA regulations, including the definitions of a "Confined Space"
- Hazards of a confined space, and assessment
- Employer programs for confined space
- Planning for confined space entry
- Training and entry permits
- PPE and rescue equipment.

Who Should Attend: This is designed for all workers who may have to work in or around confined spaces and those in charge of workers entering confined space.

Learning Objectives: Upon completion of this program the participant will be able to:

- Recognize confined spaces in the work place
- Describe major hazards of confined spaces
- Identify controls required for confined space entry.

Evaluation/Documentation: Written test, oral exam and/or practical assessment (on equipment). The employer will receive a certificate of completion for each participant who successfully completes the course.

About the Facilitator: This course is presented by **Ground Force Training Inc.** and affiliated companies.
